

Skykomish Cleanup

Construction update

July 28, 2010

Recent activities

- Final permits for the East and West Wetland work were issued last week. Crews began prepping, clearing and grubbing the East Wetland earlier this week and excavation and backfilling will begin in the area next week.
- The traffic control installed on Highway 2 for the 5th Street Bridge closure was removed and the road was restored to its original configuration on Monday.
- The Mackner house and cottage were raised this week and foundation work will continue into next week.

What's happening next?

- Water bypass work is scheduled for this **Friday, July 30**. A temporary water outage from **10 a.m. to 2 p.m.** will affect residents and businesses west of 5th Street. Affected residents will receive more details about this outage.
- **Railroad Avenue will be closed between West River Drive and 6th Street on Monday and Tuesday of next week (August 2-3)**. Crews will excavate and backfill the area south of the school building. Traffic will access West River Drive via 6th Street. Please look for trucks and pay attention to posted street signs.
- Work at the West Wetland will begin next week, including site prep, clearing and grubbing. A cofferdam will be installed next week and excavation is scheduled to begin the week of August 9.
- Crews are scheduled to set the Community Center and the Town Maintenance building on their foundations this week. Foundation work on the other relocated buildings in the Northwest Developed Zone continues.
- Restoration work on the Cascadia continues, including framing walls.
- Crews will begin final restoration in the Town right-of-way areas east of 5th Street next week, including curb and gutter work.
- Final permits for in-river work near the 5th Street Bridge are currently under review by the National Marine Fisheries Service and Washington State Department of Fish and Wildlife.
